Hi David,

We did 3 flights. I'm not sure of the number of flight lines. The data may be broken up into 4 flights as we were returning to the airfield when we restarted our systems for additional flight lines.

Regards,

Ahmed

Thank you.

How many flights did your team do today?

-David Cook

Hi everyone,

See below:

site: <ftp.epaaspect2.net>

user: TPC_fire@epaaspect2.net

password: data4EPA!

port: 21

We have not uploaded all of the data yet (or processed). I'll confirm once it's all uploaded.

Let me know if you have any questions or need anything else.

Regards,
Ahmed

Ahmed,

Will you please give the following people access to the FTP so they can produce the maps for Adam?

Thanks

Ahmed Hafez? If so, it's 202-494-9452. Unless it's changed since July.

Eric, Can you reach out to ASPECT to acquire flight data when you have a chance? We haven't been able to get anything from Adam all day. I don't know how many times they've flown today. Thanks

Hey David,

- No word on using VIPER for air monitoring yet.
- I haven't been able to grab Adam about that, can you have Eric reach out to ASPECT please.
- Adam has not said TAGA was deployed yet

- Currently the only threshold to call the strike team is VOCs that exceed at 5 ppm.
- A new evacuation order of a 4 mile radius from the site has been put into place, so Zone 1 and Zone 2 teams were moved to monitor Zone 3 with Amy.

I'll let you know when I hear more.

Thanks!

Hey, James,

Few questions for you:

1. Are you guys planning on using VIPER for air monitoring?
2. Any word on the ASPECT data? I can have Eric Delgado reach out to the ASPECT team if Adam Adams is too busy.
3. Will the TAGA bus be out and about?
4. Do you have a list of the exceedance thresholds for the handheld air monitoring?

Thanks,
